Lana Swartzwelder, President  
YoungBiz Florida

Dear Lana;

Please allow me to express on behalf of the Sarasota County School District, Career and Technical Division, how pleased we are with YoungBiz instructional materials, teacher training professional development, and on-line resources. YoungBiz has gone above and beyond to meet our needs and expectations as we implement our Entrepreneurship and Financial Education curriculum into our career-themed smaller learning communities.

Our high schools have worked to infuse these subjects into other business and academic courses taught within the district. YoungBiz has provided competitive pricing, responsive customer support, and ongoing communication about maximizing the use of the resources provided. The staff at YoungBiz has truly been a pleasure to work with.

I strongly encourage all school districts and business education teachers to utilize YoungBiz to enhance their finance and entrepreneurship content. YoungBiz materials are easy to use, address local and national standards, and provide students will valuable skills that they can use for a lifetime.

Respectfully,

A handwritten signature in blue ink that reads 'Mellissa Morrow'. The signature is written in a cursive style.

Mellissa Morrow, Director  
Career and Technical Education
